**DERMAdoctor SPECIALIST SKIN CARE ANNOUNCES RELEASE OF WRINKLE
REVENGE™ ANTIOXIDANT-ENHANCED GLYCOLIC ACID FACIAL
CLEANSERS**

**Three Levels of Increasing Glycolic Concentration Offer Tailor-Made Rejuvenation; Level
Three Available Exclusively Through Physician Channels**

Kansas City, MO (March 01, 2006)—DERMAdoctor Specialist Skin Care announced today it has released for sale the *Wrinkle Revenge™ Antioxidant-Enhanced Glycolic Acid Facial Cleansers* in levels one, two and three. The cleansers offer 12, 15 and 20 percent buffered glycolic action respectively and are enhanced with the free-radical fighting antioxidants White Tea, Pomegranate, CoQ10, and Vitamins C and E. All formulations are soap-free, oil-free and pH balanced to refresh dull complexions while working synergistically with most daily rejuvenation regimens. They also provide superior cleansing action for blemish-prone skin.

“These product formulations represent the next generation in glycolic cleansing,” says Dr. Audrey Kunin, MD, president and founder of DERMAdoctor Specialist Skin Care. “Not only do they offer a gentle, yet effective approach to exfoliating cellular build-up and clearing residue, but they also protect and nurture the skin with the most powerful in antioxidant therapy.”

The cleansers can be used as part of a step program, allowing the user to “graduate” to the next level of glycolic concentration as one’s skin becomes tolerant of the lesser strength. It’s suggested that anyone new to a glycolic cleansing regimen, or anyone who is unsure of how their skin will tolerate a glycolic cleanser, start first with the 12 percent formulation before advancing to the 15 percent or beyond. Due to the potency of the 20 percent formulation, *Wrinkle Revenge 3* should be used under a doctor’s care and is only available for purchase through physician outlets.

All *Wrinkle Revenge* cleansing products are non-comedogenic, nondrying, nonirritating and are allergy tested.

Wrinkle Revenge 1 and *2* are available for purchase through Sephora and Sephora.com; *Wrinkle Revenge 1, 2* and *3* are available for purchase through DERMAdoctor.com (1-877-dermadr) and select physician outlets. Suggested Retail Price: *Wrinkle Revenge 1*, (7 oz.) \$24; *Wrinkle Revenge 2*, (7 oz.) \$25; *Wrinkle Revenge 3*, (7 oz.) \$26.
