▶ BORN TO BE MILD MEDICATED FACE & BODY CLEANSER

Containing 2 percent pyrithione zinc, Born to Be Mild Medicated Face & Body Cleanser from **Dermadoctor** is medically effective in treating seborrheic dermatitis, dandruff, and other skin disorders that result in flaking, blemishes, redness, and itching. The non-irritating, non-drying, pH-balanced formulation allows for daily use on both the face and body. (877) DERMADR; www.dermadoctor.com.

▶ NU-DERM SYSTEM

The Nu-Derm System from **Obagi** is a prescription-based skincare line designed to transform skin to look and act younger and healthier. The system utilizes tretinoin and hydroquinone to

trigger a series of cellular events that transform skin cell functions. The line includes products to cleanse the skin, correct premature damage and hyperpigmentation, stimulate collagen and elastin formulation resulting in stronger, more resilient skin, and protect the skin against environmental pollutants. www.obagi.com.

▶ 'C' SERUM
'C' Serum from **Medicalia** is an intensive skin smoothing and firming serum featuring oxyzomes, a new generation of liposomes that contain stabilized vitamins C and E in a multi-shield structure. Oxyzomes are specially engineered from soy lecithin for extra stability within an acidic pH environment. The delivery system infuses the skin with vitamins, increasing bioactivity by 85 percent. The serum, which is recommended for all skin types, reduces the appearance of wrinkles while rejuvenating the skin. (866) 314-1975; www.medicalia.com.
