## ASK HOLLY

Our beauty director gives you the lowdown on looking good

**Q** How can I prevent concealer from getting trapped in the fine lines around my eyes?

**A** Try using a primer to fill in crevices and allow makeup to go on smooth. We like the new Revlon Age Defying Precise Wrinkle Eraser with Botafirm (\$14, drugstores). It's easy to apply and can be used for forehead furrows, crow's-feet and laugh lines.

**Q** If I get highlights, do I need to lighten my eyebrows?

**A** Put down the peroxide, says eyebrow guru Robyn Cosio of Salon Maxime in Beverly Hills, Calif. "To achieve a natural look, it is key to match your brows to the darkest hair on your head — your base color — not the highlights," says Cosio.

**Q** How can I get tangles out of my long hair?

**A** Try a brush with metal teeth, typically used on extensions and wigs (long-haired gals will like the Removal Brush by Sheila Stotts, \$30, sheilastotts.com). "Begin brushing from the ends of hair, working toward the roots," says Stotts, a hair-extensions expert. She then suggests using a natural boar-bristle brush going from the roots down. She says, "This process moves oil down the hair shaft, closing the cuticle and causing fewer tangles."
