## KP duty™

dermatologist body scrub  
with chemical + physical medi-exfoliation  
473 ml - 16 oz  
\$44

**Skin Concern:** Dry, flaky patches and “chicken skin” bumps associated with keratosis pilaris and other general dry skin concerns

**DERMAdoctor Solution:** KP Duty Body Scrub delivers medical-quality exfoliation by combining the best of a mini-chemical peel and microdermabrasion into a single, effective, less-irritating treatment

Feature	Benefit
15% Buffered Glycolic Acid	Smooths the appearance and improves the overall texture of the skin. Superior alpha hydroxy acid (AHA) chemically exfoliates the skin by breaking down the substance that binds epidermal cells together
Lactic Acid	Potent AHA that retexturizes the surface of the skin by diminishing the cohesion of surface skin cells and stimulating cell renewal
Azelaic Acid	Offers antibacterial, keratolytic and comedolytic properties: inhibits the growth of bacteria in the hair follicle while normalizing the disordered growth of skin cells and reducing pigment abnormalities in the skin
Green Tea, Willow Bark & Algae Extracts	Reduces inflammation, redness and irritation while providing antioxidant protection
Polyethylene Buffing Beads	Delivers non-abrasive physical exfoliation by lifting away dead skin cells

### Inform The Consumer

- o Buffered glycolic acid formulation allows for a less-irritating chemical exfoliation process; however, this product is not recommended for those with ultra-sensitive skin
- o KP Scrub provides an advanced exfoliating action that is recommended prior to self-tanning or any post-bathing treatment regimen (e.g., body acne, keratosis pilaris, ingrown hairs, bleaching etc.)

### Directions

Moisten skin with water. Apply a small amount of product and gently exfoliate with fingertips. Not recommended for use on face. Rinse and pat dry. Follow with treatments, products or moisturizers as desired. Use once or twice a week as tolerated or recommended by your physician.

Dermatologist Tested & Approved, Non Comedogenic, Non Irritating, Allergy Tested, Fragrance Free, Dye Free, No Animal Testing
